ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite): Wetlands are isolated, intrastate waters with no inlets or outlets; no other nexus to interstate commerce. Not adjacent to any flowing water. Are proximal to a man-made (non-jurisdictional) drainage ditch, but do not discharge into it. Likely human-induced wetlands due to substantial past alterations of site in highly urbanized setting.
